ACADEMIC & TECHNICAL PROJECTS

- **Frontend Development Projects:** I have worked on numerous frontend projects to build responsive and interactive web applications. For practice, I am continuously improving my skills and am currently working on new projects for better practice and enhancement. None of these projects are live yet, but you can check my progress on my [GitHub](#).
- **CCTV Camera Installation:** Designed and installed a CCTV system as part of a network setup project, ensuring proper functionality and connectivity.
- **LAN Network Setup and Cabling:** Configured and managed a local area network, performing cabling and ensuring reliable communication across devices.
- **Windows Server Administration:** Managed server configurations, Active Directory, and basic troubleshooting during my internship, gaining practical experience in IT support and network management.
